# PERFORMANCE CLUB MEMBER BENEFIT EXPLANATIONS

## PLAN

- (A, B, C) Priority Service-** As a Performance Club Member (A,B, OR C), if your air conditioning system breaks down and you need emergency service, you will receive service before non club members. Performance Club Members are the ONLY customers that receive priority service after hours, weekends or Holidays for an emergency call.
- (A) Drain Related Problem-** As a Performance Club Member “A”, if for any reason your drain line gets restricted, we will perform a drain line cleaning at no charge to you. \* Excluded in this coverage is replacement of drain lines, improper drain line sizes, common drains tied to other properties and improperly installed drain lines.
- (A) 20% Discount on any service repair-** As a Performance Club Member “A”, if you need a service call, you will receive a 20 percent discount off of our standard flat rate pricing.
- (B) 15% Discount on any service repair-** As a Performance Club Member “B” if you need a service call, you will receive a 15 percent discount off of our standard flat rate pricing.
- (C) 10% Discount on any service repair-** As a Performance Club Member “C”, if you need a service call, you will receive a 10 percent discount off of our standard flat rate pricing.
- (A, B) Annual Duct Sanitizing-** One time per year, Performance Air Conditioning will sanitize your duct system using a bacteriostat-fungistat-deodorizer that is EPA registered and formulated for use in HVAC systems. It has low toxicity that can be fogged through your air conditioner and duct system. It is a fungicide, virucide, mildewstat and deodorant that kills odor causing bacteria and germs, has tested effective against Legionella and helps reduce allergies. (An MSDS sheet is available)

### **Our Precision Tune up includes:**

- Check operation of thermostat and calibrate
- Wash or change filter, filter provided by customer- or purchased through us
- Check overall operation of air handler including:
  - a. Oil blower motor bearings
  - b. Apply self rinse coil cleaner to evaporator coil
  - c. Sanitize air handler housing
  - d. Treat and clean drain pan
  - e. Vacuum drain line to remove any blockage and apply drain line treatment
  - f. Check safety overflow drain switch to prevent water damage.
- Check all safety devices at air handler for electric heat operation and ensure the heat is not coming on during cooling, which causes high operating cost.
- Visually inspect duct work for leakage and mold.
- Condenser check (outdoor unit)
  - a. Remove top of unit and vacuum leaves and other debris from inside of unit
  - b. Wash coils thoroughly inside and out with high pressure water hose
  - c. Check and tighten all electrical connections
  - d. Oil motor bearings in fan motor
  - e. Clean panels free of any weeds or debris that may cause airflow restriction
  - f. Apply protective wax
  - g. Check sub cooling and superheat refrigerant for correct capacity charge
  - h. Add up to 2lbs of refrigerant if necessary
- Locate end of drain line to ensure proper drainage of system which can improve system efficiency of humidity removal by 60%.
- Last but not least, check correct breaker size to prevent house fires.

Performance Air Conditioning’s liability for improper performance or for failure to perform this service agreement shall be limited to the refunding of a portion or the whole of the payment made by purchaser for the maintenance service. In no event shall Performance Air Conditioning be liable for consequential damages of any nature what so ever resulting from its failure to perform or to properly perform this agreement.
